System Update – Anne Neville

Enterprise move to HTTPS: The Enterprise catalog was successfully moved to using HTTPS access on Wednesday morning (April 26). TLN recommends that any links/bookmarks be updated to reflect the change (<http://tln.ent.sirsi.net> to <https://tln.ent.sirsi.ent>). Right now there is a redirect from HTTP to HTTPS in place but eventually that will go away.

Database Clean-up: TLN has begun the database clean-up process based on the Best Practices and Minimum Requirements document that was approved at the SASUG meeting of March 23, 2017. Going forward, items and bills will be removed on a monthly basis according to the minimum requirements outlined on the document. Please be aware that each library will start to see their total number of items and patrons drop as this process continues. (The document can be viewed at [http://tln.lib.mi.us/committee/sasug/.](http://tln.lib.mi.us/committee/sasug/))

Melcat Reminder: When a patron returns a Melcat item, library staff should check it out to their Discard user (e.g. XXXX-DISCARD) in the shared system so the item will be removed from the shared system. Directions for using the Discard user and processing Melcat items can be found on the TLN website under the shared automation section.

Enterprise Upgrade: Sirsi/Dynix will be scheduling an upgrade to our Enterprise instance sometime in June. This upgrade will accommodate changes that are being made by PayPal that will take effect July 1.

Holiday Hours: TLN will be closed on Sunday, May 28 and Monday, May 29 for the Memorial holiday. The Help Desk will not be staffed during the holiday hours. There will be periods of time when the shared automation system will be unavailable due to system maintenance.
