

Introduction to Square

Square is a great way for libraries to offer the safest and secure contactless payments, especially during COVID-19. Square specializes in both retail sales and food/beverage sales- with the option for a built in point of sale.

Square makes signing up very easy for libraries, and has offered to help support your accounts with free 24/7 phone support and an account manager from Square's corporate office. Please see a slide deck (powerpoint) attached with photos and more information on how to use Square.
